SPRING / SUMMER

Bathroom

Cabaret 4 II

Cabaret 5 II

Versailles 250

Versailles 400

Cabaret

A contemporary take on the classic Hollywood mirror, the Cabaret features a slender steel body and blown glass globes for bright, even illumination. Intended for bathrooms or dressing rooms, it can be positioned both horizontally or vertically around a mirror and is available in our new matt black finish.

5 II

4 II

MB PCh

Supplied unswitched for easy integration into a bathroom lighting scheme.

G9 LED lamps provide bright, even illumination with a range of colour temperatures and light outputs available. Lamps are sold separately.

Technical data p. 22

Versailles

Our Versailles is inspired by classic 1930s designs, updated with a modern dimmer function. Intended primarily for bathrooms, its streamlined look complements any space. Made from individual glass rods with metal end caps, it provides glare-free task lighting that exudes vintage glamour.

250

400

Br PCh MG

Die-cast end caps achieve crisp and sharp detailing.
IP44 rating makes the Versailles suitable for all interior settings, including bathrooms.
Supplied with a phase dimmable driver which is compatible with most leading and trailing edge domestic dimmers.

Fuse 3

Amas + Amat

With a softly curved, rectangular form, both Amas and Amat cast a wash of illumination up, down and outwards for multidimensional ambient lighting. An update on Art Deco style, two and three tiered configurations are available and have been created with functional, contemporary interiors in mind.

Amas 320

Amat 320

C

Carefully hand finished to meet our exacting quality standards.

Quick and simple to install, keyhole slots attach the product seamlessly to the surface.

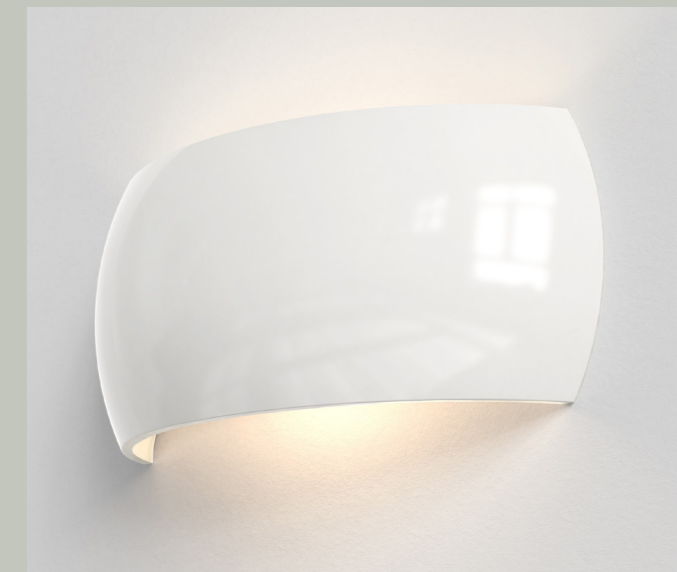

A natural ceramic finish means the product can be painted to suit any interior.

Uses hassle-free replaceable E27 lamps.
Lamps are sold separately.

Milo 300

The Milo provides atmospheric mood lighting, casting a generous wash of light upwards and downwards. Now available in a gloss white finish the Milo is particularly well suited to contemporary, architecturally led interiors, but its restrained design allows it to blend in anywhere.

GW

A smooth gloss finish allows for quick and easy cleaning.

Carefully hand finished to meet our exacting quality standards.

Quick and simple to install, keyhole slots attach the product seamlessly to the surface.

Uses hassle-free replaceable E27 lamps
Lamps are sold separately.

Technical info p. 23

Avignon

Inspired by Art Deco luminaires and designed with hospitality settings in mind, the Avignon is large in scale adding instant drama and presence to a space. Tall and slender with a rounded or squared profile, it features sparkling clear glass rods, die-cast end caps and exudes ambient, glare-free illumination.

375

525

300

500

Br AB

Recommended to be used with an LED E27 filament style lamp to create vibrant, glare free illumination. Lamps are sold separately.

Die-cast end caps achieve crisp and sharp detailing.

A reinforcing diffuser sits behind the rods of glass to provide added protection and strength.

A singular, discreet fixing screw is used to achieve a clean look.

500

600

Cambria

Our Cambria pendant is the ultimate solution for modern, understated lighting schemes. Fine details also elevate it above other drum pendants: the discreet metal ceiling rose, the stylish braided fabric cable, and the lined polycotton fabric shade.

pendant

shades

500

600

Compatible with a Cambria 500 or 600 shade available from stock in white, putty and pleated white. For orders over 30pcs special finishes can be specified. Shades sold separately.

Utilises three E27 lamps to ensure the product provides sufficient illumination. Lamps are sold separately.

Ensuring installation is hassle-free, a push fit terminal block allows for easy loop in/out wiring and toolless connection.

Flawlessly finished, the ceiling rose cover screws directly onto the ceiling bracket so there are no visible fixings.

Hashira 300 + 400

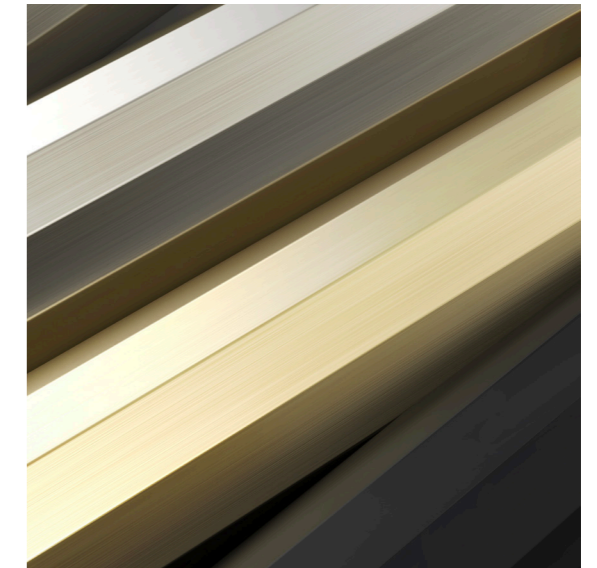

The Hashira is a contemporary faceted form inspired by neoclassical architecture. It washes defined pools of light upwards and downwards, casting complex shadows that echo its shape.

300

400

MB MN MG

Sitting flush against the wall, all terminations are housed within the surface mounted backplate adjoined to the luminaire's sleek, faceted body.

Ensuring installation is hassle-free, a push fit terminal block allows for easy loop in/out wiring and toolless connection.

No external fixings are visible offering purity of form and a clean finish.

A standard length GU10 lamp sits around 35mm from either edge of the Hashira, keeping glare low, output high and relamping simple. Lamps are sold separately.

Can be used with Smart home GU10 lamps such as Philips Hue.

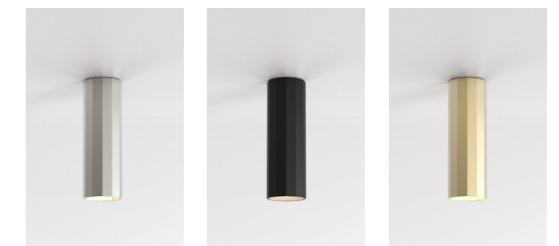

Technical data p. 22

Hashira pendant + surface 250

This sculptural product is imagined as a modern feature both for domestic and hospitality projects. Visually striking, the Hashira's discreet profile and dramatic lighting effect create an impact and brighten dark areas.

pendant

surface 250

Ensuring installation is hassle-free, a push fit terminal block allows for easy loop in/out wiring and toolless connection.

Flawlessly finished, the ceiling rose of the pendant or the faceted body of the downlight threads onto a separate ceiling bracket so there are no visible fixings.

A standard length GU10 lamp sits around 35mm from either edge of the Hashira, keeping glare low, output high and relamping simple. Lamps are sold separately.

Can be used with Smart home GU10 lamps such as Philips Hue.

Lucca

The Lucca is a modern update on the classic gooseneck task light, with a flexible matt black silicone arm. Our slimmest LED reader to date, it measures just 25mm in diameter. The design's slender form gives it a visual lightness that belies its extreme practicality.

surface

unswitched

recessed

unswitched

The LED is deeply recessed and accompanied by a matt black bezel to achieve low glare and maximum visual comfort.

Ensuring installation is hassle-free, a push fit terminal block allows for easy loop in/out wiring and toolless connection.

Designed to be durable and robust to meet hospitality standards.

The silicone sleeved arm can be easily and quickly wiped clean, perfect for hotel use.

For the recessed version, screw fixings are housed behind the front plate so there are no visible fixings.

The Lucca Surface and Recessed unswitched variants are available by special order. A minimum order quantity of 100pcs applies.

Technical data p. 23

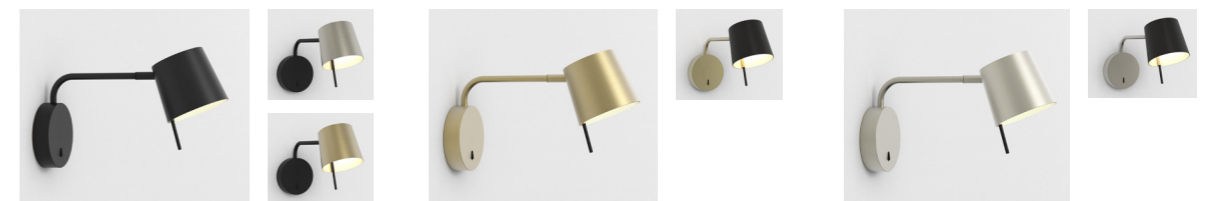

Miura wall + swing arm

The Miura is a timeless, supremely functional LED reading light that adds elegance to a room while allowing its user complete control. Intended principally for hotel guest bedrooms, the Miura's simplicity and adaptability also make it ideal for domestic projects.

wall

swing arm

MB MN MG

Able to be customised with Cone 105 shade available in coordinating metal finishes.

A hidden heat sink and custom moulded diffuser protect the LED and reduce glare to provide even illumination.

Ensuring installation is hassle-free, a push fit terminal block allows for easy loop in/out wiring and toolless connection.

Provided with a durable, adjustable knuckle joint which allows for 330 degree rotation and 90 degree tilt.

Miura desk usb

With the Miura Desk USB, we set out to create the perfect LED desk light: a compact, contemporary shape that is exceptionally functional with an incorporated USB and rocker switch.

MN MG

Able to be customised with Cone 105 shade available in coordinating metal finishes.

A hidden heat sink and custom moulded diffuser protect the LED and reduce glare to provide even illumination.

Provided with a durable, adjustable knuckle joint which allows for 330 degree rotation and 90 degree tilt.

Supplied with an integral switch in the base and a handy USB socket.

The USB port remains powered even when the light is off so devices can still be charged.

Fuse 3

Thanks to its clean lines and high level of visual comfort, the Fuse is one of our most popular reading lights. This updated version, the Fuse 3, features a concealed switch for a seamless finish.

A neatly concealed micro switch ensures the light is turned off when maneuvered back to its central resting place against the wall.

No external fixings are visible offering purity of form and a clean finish.

The LED is deeply recessed and accompanied by a matt black bezel to achieve low glare and maximum visual comfort.

Can be mounted horizontally or vertically to accommodate both right and left-handed requirements.

Exterior

Harvard lantern

Harvard pendant

Kuro 250

Kuro 450

Myos

Harvard lantern

A modern interpretation of the traditional lantern in a crisp, slimline box shape, the Harvard Lantern brings an elegant symmetry to a building's exterior.

TB

A removable lower diffuser provides an IP44 rating and allows for easy relamping.

Features a two part terminal block for easy installation; Connections are made within the wall base which joins to the main body for hands free wiring.

Singular, discreet fixings create a clean and simple aesthetic.

Use with 6004093 lamp for a bold contemporary look. Lamps are sold separately.

If a frosted look is preferred, please use our frosted glass kit. Glass kit sold separately. (Code: 6030003)

Harvard collection

Technical data p. 22

Harvard pendant

The Harvard Pendant completes the popular Harvard collection, bringing a crisp sophistication to a hotel entrance, complementing any style of architecture.

TB

A removable lower diffuser provides an IP44 rating and allows for easy relamping.

Ensuring installation is hassle-free, a push fit terminal block allows for easy loop in/out wiring and toolless connection.

Designed so the frame can be easily adjusted to sit parallel to adjacent walls.

A single discreet fixing creates a clean and simple aesthetic.

Use with 6004093 lamp for a bold contemporary look. Lamps are sold separately.

If a frosted look is preferred, please use our frosted glass kit. Glass kit sold separately. (Code: 6030003)

Harvard collection

Technical data p. 22

250

450

Kuro 250 + 450

The Kuro is our first portable, solar-powered, rechargeable exterior light. An invaluable addition to any hotel terrace or domestic garden, this contemporary lantern blends effortlessly with any style. It can be used both outdoors and indoors thanks to an additional USB charging source.

TB

Powered via solar panels located on the top of the product.

Three brightness settings available which can easily be adjusted via a push switch on the underside of the product.

A hidden LED eliminates glare and focuses the light downwards

A USB-C cable is provided as an additional charging method. An AC adaptor plug is available to purchase separately (code: 6032001).

Takes around 5 hours to fully charge via USB. A full charge will last 5+ hours on full brightness and 12+ hours on the lowest setting.

Technical data p. 23

Myos

Simple and modern with an architectural feel, the Myos offers versatile accent lighting. Use it to illuminate plants and pathways, or for drama in hotel entrances.

TB

Standard height of 150mm but can be extended to 350mm or 550mm using up to two extension poles. Extension poles are sold separately. (Code: 6034001)

The head is fully adjustable with a tilt angle of 180 degrees. The chosen angle can be easily secured using the allen key provided.

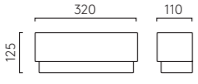

A metal plate sits neatly on the ground for added stability and to indicate when the spike is fully inserted.

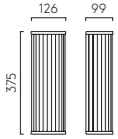

This product is Class III so requires a constant current driver. Driver sold separately. Dimmable, when used with dimming driver.
